Confirmation of Course Participation

Mr Latif GUNGOR

participated in our training from 17.09.2022 to 08.10.2022
and completed it successfully.

CSS Advanced

After completing this training, the participant will have the comprehensive skill of designing, styling and prototyping of a complex web page with the helps of state-of-the-art methodologies, techniques and frameworks. The course lasted 42 hours and included the following main topics:

- Design Systems and Style guides
- High fidelity prototypes with Figma (Interface Design Software)
- CSS programming by SCSS (CSS preprocessing)
- Structuring CSS classes with the BEM approach
- Modularizing CSS (files) by using SMACSS guidelines
- Creating responsive complex design with the Framework „Bootstrap 5“
